WELCOME

Welcome to the British Council!

At the British Council, we provide cultural opportunities in more than 100 countries through our work in education, society, art, science, and English teaching and certification. In this way, we connect with around 128 million people every year.

We started out in Spain more than 75 years ago. Last year 25,000 people chose to learn English with us and 75,000 got an English language qualification. Moreover, 2,000 families chose the bicultural, bilingual system at our British Council School.

Our work is also driven by the goals of better English teaching with a broader scope. That is why we cooperate with governments, teachers and educational institutions in both Britain and Spain to foster student exchanges between the two countries.

Our commitment to creating cultural opportunities also involves disseminating the work and creativity of British scientists and artists. Last year we took part in more than fifty events to bring them to Spanish audiences.

Welcome to our world of English

WHY CHOOSE THE BRITISH COUNCIL FOR YOUR CHILD?

AN INTERNATIONAL BENCHMARK

We are pioneers in English teaching and in developing teaching methods, with a presence in over 100 countries.

A SAFE, INCLUSIVE ENVIRONMENT

We work to create a safe, inclusive learning environment in which children and young people can develop their full potential.

A UNIQUE EDUCATIONAL EXPERIENCE

We offer a unique educational experience within a global community of over 500,000 learners.

OUR TEACHERS

Our teachers and examiners have extensive experience and specific training.

STIMULATING, FUN CLASSES

We are committed to stimulating, fun classes as an essential part of the learning process.

THE LATEST TECHNOLOGY

We have multimedia resource centres, libraries and the latest technology to help you make the most of your learning experience.

OUR EDUCATIONAL PHILOSOPHY

We firmly believe that the way for children and young people to learn is by creating a fun, participative and inclusive environment. By incorporating this philosophy into our classes, we make sure our young learners enjoy the learning process while at the same time improving their English.

Playing a part in their own progress

When children are involved in their own learning, they progress with confidence and this fosters their independence. This is how we enable them to develop the necessary skills for life long learning.

Alternative plan in case of lockdown

The British Council can count on online learning platforms such as **Learning Hub**. They work in parallel with our courses, allowing us to provide a completely adaptable face to face programme which can move online if circumstances require.

OUR TEACHERS

We only work with the best teachers, which means we can guarantee top-quality teaching. This means our teachers have internationally recognised qualifications like the University of Cambridge **CELTA** certificate or the Trinity College **TESOL** Diploma, plus at least two years' experience. In addition, many of them obtain specific qualifications like the **TYLEC**, which reinforce their experience as teachers of children and young people, and devote time to their own professional development with numerous training sessions throughout the year. This ongoing dedication ensures that your child learns from experts able to make their classes appealing, fun and effective.

PRE-SCHOOL CHILDREN

(FROM 14 MONTHS TO 5 YEARS)

The best education, from early childhood

A child's early years are of key importance in acquiring a second language, and the foundation that is laid down at this stage will serve them for the rest of their lives.

We aim to take maximum advantage of this stage, and devote a large part of our resources to designing educational programmes for early childhood. Thus, we make use of the latest teaching methods, enabling us to encourage every child to develop their full potential.

Our programmes are based on the *British Foundation Stage Curriculum*, fostering your child's physical and intellectual maturity and based on five key areas:

BILINGUAL BABY CLUB

(FROM 14 MONTHS)

Their first steps with you in English

What does it consist of?

This programme, offered by the British Council School, has been developed for parents and children from the age of 14 months to share a directed activity which lays the foundation for a bilingual education in English and Spanish.

Parents and children learning together

As well as enjoying a special time together, you will see how to approach your child's development, and discover how to use music and sensory experiences to improve their ability to communicate in both languages at the same time.

At the Bilingual Baby Club:

- You will accompany your child as they take their first steps in English.
- We will foster your child's physical and intellectual growth.
- Our educators have experience in children's education and in the British curriculum.
- You will discover how to use different ways to improve their communicative ability in English and Spanish.

LEARNING TIME WITH TIMMY

(FROM 2 TO 5 YEARS)

A fun experience learning English

We want your child's first experience with English to be a happy one, so that they will develop a positive attitude to learning which will stay with them for the rest of their life.

The British Council, together with the British animation studio Aardman, has created **Learning Time with Timmy**. This is the perfect combination of English teaching and the much-loved children's character, Timmy the lamb, and helps kids to **learn the language** while they **enjoy** a host of activities.

What does it consist of?

Through a structured game and a combination of activities, stories, songs, movement and crafts, we set out to create a sensory, exploratory setting for your child to have fun and learn English naturally, almost without noticing.

Good pronunciation

We take advantage of children's natural predisposition to learn, and place special emphasis on pronunciation. To do this, we work with songs, games and rhymes to help them pronounce English naturally right from the start.

By adhering to the key **stages in children’s development**, we make sure they have a solid foundation in English.

EARLY YEARS 2

EARLY YEARS 3

EARLY YEARS 4

EARLY YEARS 5

In Learning Time with Timmy your child will:

- Acquire an interest in the English language.
- Lay the foundation for correct pronunciation.
- Have fun and develop a positive attitude to learning.
- Feel safe and supported by our teachers and staff throughout the learning process.
- Gain improved mental agility thanks to multi-sensory activities like crafts, rhymes and games in English.

PRIMARY PLUS

(FROM 6 TO 11 YEARS)

Playing a part in their own learning

In **Primary Plus**, your child will develop the ability to communicate in English without difficulty and acquire essential skills that will help them to carry on improving as they get older. This will help prepare them for future challenges.

What does it consist of?

Your child will engage in projects and tasks on exciting subjects for children of their age. Through activities like games, songs or drama, we enable them to express themselves clearly in English, while consolidating their pronunciation at the same time.

Increased confidence when speaking English

With Primary Plus your child will feel at the centre of their own learning and perform confidently in a setting in which only English is spoken.

Their all-round development as a person

Apart from learning English, we will foster other aspects essential to children's overall development as people. We will work on their social, personal and emotional skills, and encourage abilities like creativity, leadership and critical thought. These are certainly all learning abilities that will be of use to them throughout their lives.

We respect every child's pace and understand that learning is an individual process, which is why we look at their development as a means for establishing a level that will allow them to make the most of their potential.

In Primary your child will:

- Lay the foundations to acquire language skills in English.
- Consolidate correct pronunciation.
- Have fun as they get involved in their learning through stimulating projects.
- Develop their creativity, leadership and critical sense.
- Acquire basic skills that will be of use to them in the future.
- Gain the confidence they need to express themselves fluently in English in situations that are familiar to them.

SECONDARY PLUS

(FROM 12 TO 17 YEARS)

Prepared for a competitive global environment

In an increasingly competitive world, we want our teenage students to be prepared for the global environment. Secondary Plus will help them to grow their **confidence to communicate in English** at the same time as developing other key skills for their future lives.

What does it consist of?

The curriculum has been exclusively developed for the British Council by our experts. Our students will improve their ability to communicate in English and reflect on their progress with their teacher, so that they have a clear vision of how to continuously improve their learning.

Preparing for the future:

We will develop their leadership potential, problem-solving abilities, critical thinking and creativity, through projects relevant to real life such as a mock international summit.

Inspired to continue learning:

In Secondary Plus they will find motivation in relevant and dynamic subject areas which will inspire them to want to learn more.

Adapting to every student:

Secondary Plus students **learn at different rates**, for this reason we place them in the level which best suits their needs. We also arrange our classes around various age groupings according to interests and goals.

WE WILL DEVELOP THE
KEY SKILLS YOUR CHILD
WILL NEED IN THE 21ST
CENTURY

We place our students in the **level which best suits their needs.**

Different preparation options:

- In our Secondary Plus academic year programme we **integrate exam preparation** for First, Advanced and Proficiency in levels 6, 8 and 10 respectively. In these courses we take students to the level they need in order to pass the exam.

We also offer short courses specifically designed to practise the techniques necessary for these exams.

- **Online preparation** - students in levels 8 and 10 can choose to prepare the Advanced or Proficiency exams online, as an alternative to taking a face to face course in Secondary Plus.

ENGLISH EXTRA

A world of English to discover

The best way to reinforce the English you learn in class is to put it to natural use in everyday life: We therefore encourage all our learners to join in all the activities we organise within the English Extra programme.
